*TAKING NO PRISONERS* — LP

A ten-track LP built around original sound design and forward-thinking composition — equal parts precision and unorthodox mischief, with real editorial angles and sync-ready tension.

## PRESS RELEASE

**VXRIABLE** unveil *TAKING NO PRISONERS*, their debut LP — out **February 13, 2026** via **MÖ//DE Soundworks**. The record channels a wide emotional range through contemporary electronic arrangement: high-definition low-end pressure, intricate textures, and moments of restrained, cinematic space.

Across ten tracks, the duo apply forward-thinking methods of composition and sound design to bend conventions without losing impact — drawing from drum-and-bass energy, experimental electronic detail, and contemporary-classical tension. It's an album that plays as a full listen, but also yields clean entry points for editorial coverage and sync contexts that need momentum, precision, and atmosphere.

**Featured artists** bring distinct voices into VXRIABLE's framework: **Lenny** (vocals + lyrics) on "LOVE SONG FOR AN 808" and **Nikki Huang** (vocals) on "TWO-WAY MIRROR". Written, produced, mixed, and mastered by **Piotr Antoni Majer** and **Joshua Ryan Weinfeld**.
